

## WELLS FARGO SELECTS THE SWITZER GROUP FOR 30 HUDSON YARDS

The Switzer Group has been awarded major interior architecture contracts for more than 500,000 SF of space purchased by Wells Fargo & Co. at 30 Hudson Yards. The best-in-class space will house the New York City headquarters of Wells Fargo Securities, bringing together more than 2,500 investment banking and capital market employees on nine stories. The project fit out includes 150,000 SF of trading space on two floors, offices, and critical facilities infrastructure.

According to Wells Fargo Corporate Properties management, The Switzer Group was the clear winner based on the integrity of the firm's commercial and trading floor design portfolio, and the strength of its team.

The Switzer Group, an award-winning minority business enterprise, has provided interior architectural design services for several other Wells Fargo spaces in the U.S., in Boston, Connecticut, Delaware, New Jersey and Virginia. The Hudson Yards assignment, a showcase project for the global financial services company, takes the collaboration to a "new level" notes The Switzer Group founder and CEO Lou Switzer.

"We are honored with the trust and confidence Wells Fargo has placed in our firm's ability to deliver outstanding interior design solutions for its Hudson Yards space. As an MBE firm owner, it is particularly gratifying," says Switzer.

Interior design for the premier space will be inspired by the surrounding mixed-use, "city within a city" development and neighborhood, bringing in magnificent views of the New York skyline and Hudson River, the Chelsea vibe and museum scene, and the Highline. The project is scheduled for completion in early 2020.

**"The Switzer Group was the Wells Fargo selection committee's unanimous choice for the 30 Hudson Yards Project. I was impressed by The Switzer Group's collaborative can-do spirit, design innovation, technical expertise, and project management capabilities. Their team's presentation blew us away!"**
